Subject: Re: Public Notice 2017 1st quarter revision

Emmanuelle,

I greatly appreciate your input and I will take your suggestions and incorporate those highlighted sentences and re-submit the revised Public Notification tomorrow. Again, thanks

Jeff

Hello Jeff,

The public notice looks good. However under the section titled "What should I do" I would recommend the attached changes. Boiling water only increases the arsenic concentration and so the public should be aware that boiling water does not remove arsenic. I would recommend the highlighted language instead. Please let me know if you have any questions. Thanks,

Emmanuelle

Please: All data submittals to our office should be sent by email to datamanager@epa.gov with a copy to me (or your project manager in the Drinking Water Office). Data reports are due no later than the **10th** of the month following the month that you receive results, or the **10th** of the month following the compliance period, whichever comes first. Please include the whole lab report and copy of the Chain of Custody. Label with PWS name and number; & source or distribution system location codes or names for data collection points.

Emmanuelle,

Would you be able to review this Revised Public Notification to see if the required components are clear and present? If it's possible, if not I understand. Thanks

Jeff Mansfield
